## ABOUT

### It's Traditional. It's Contemporary.

It's Bass Street Chop House, specializing in the finest cuts of hand selected USDA prime and USDA choice dry aged cuts of meat.

And you'll find our seafood to always be jet fresh, of course.

If you've been here before, the new Bass Street has incorporated the feel of the best of our former location, yet is also newly complemented with additional dining areas, new fixtures and artwork and a view of the river that will make you glad you stopped.

The well-seasoned management (pardon us) at Bass Street Chop House will provide travelers and those from closer-in the drink and food served properly that every diner deserves.

### What is a chop house?

Some say it's based upon long-ago restaurants that served quality "chops"(cuts) of meat, prepared well, allowing time for diners to relax and enjoy.

All chop houses are steakhouses, but not all steakhouses are chop houses.

Bass Street Chop House is, obviously.

Eat. Drink. Enjoy. Return.

To Bass Street Chop House.
